

***“Person associated with an investment adviser”*** has the meaning given that term in section 202(a)(17) of the Investment Advisers Act of 1940 (15 U.S.C. § 80b-2(a)(17)).

***“Registered broker or dealer”*** has the meaning given that term in section 3(a)(48) of the Securities Exchange Act of 1934 (15 U.S.C. § 78c(a)(48)).

***“Securities law”*** (i) means 18 U.S.C. §§ 1348, 1350, and the provisions of law referred to in section 3(a)(47) of the Securities Exchange Act of 1934 (15 U.S.C. § 78c(a)(47)); and (ii) includes the rules, regulations, and orders issued by the Securities and Exchange Commission pursuant to the provisions of law referred to in such section.

- (B) **In General.**—A conviction under a securities law or commodities law is not required in order for subsection (b)(20) to apply. This subsection would apply in the case of a defendant convicted under a general fraud statute if the defendant’s conduct violated a securities law or commodities law. For example, this subsection would apply if an officer of a publicly traded company violated regulations issued by the Securities and Exchange Commission by fraudulently influencing an independent audit of the company’s financial statements for the purposes of rendering such financial statements materially misleading, even if the officer is convicted only of wire fraud.
  - (C) **Nonapplicability of §3B1.3 (Abuse of Position of Trust or Use of Special Skill).**—If subsection (b)(20) applies, do not apply §3B1.3.
17. **Cross Reference in Subsection (c)(3).**—Subsection (c)(3) provides a cross reference to another guideline in Chapter Two (Offense Conduct) in cases in which the defendant is convicted of a general fraud statute, and the count of conviction establishes an offense involving fraudulent conduct that is more aptly covered by another guideline. Sometimes, offenses involving fraudulent statements are prosecuted under 18 U.S.C. § 1001, or a similarly general statute, although the offense involves fraudulent conduct that is also covered by a more specific statute. Examples include false entries regarding currency transactions, for which §2S1.3 (Structuring Transactions to Evade Reporting Requirements) likely would be more apt, and false statements to a customs officer, for which §2T3.1 (Evading Import Duties or Restrictions (Smuggling); Receiving or Trafficking in Smuggled Property) likely would be more apt. In certain other cases, the mail or wire fraud statutes, or other relatively broad statutes, are used primarily as jurisdictional bases for the prosecution of other offenses. For example, a state employee who improperly influenced the award of a contract and used the mails to commit the offense may be prosecuted under 18 U.S.C. § 1341 for fraud involving the deprivation of the intangible right of honest services. Such a case would be more aptly sentenced pursuant to §2C1.1 (Offering, Giving, Soliciting, or Receiving a Bribe; Extortion Under Color of Official Right; Fraud involving the Deprivation of the Intangible Right to Honest Services of Public Officials; Conspiracy to Defraud by Interference with Governmental Functions).
18. **Continuing Financial Crimes Enterprise.**—If the defendant is convicted under 18 U.S.C. § 225 (relating to a continuing financial crimes enterprise), the offense level is that applicable to the underlying series of offenses comprising the “continuing financial crimes enterprise”.
19. **Partially Completed Offenses.**—In the case of a partially completed offense (e.g., an offense involving a completed theft or fraud that is part of a larger, attempted theft or fraud), the offense level is to be determined in accordance with the provisions of §2X1.1 (Attempt, Solicitation, or Conspiracy) whether the conviction is for the substantive offense, the inchoate offense (attempt, solicitation, or conspiracy), or both. See Application Note 4 of the Commentary to §2X1.1.
20. **Multiple-Count Indictments.**—Some fraudulent schemes may result in multiple-count indictments, depending on the technical elements of the offense. The cumulative loss produced by a
